Please find attached two KMZ files that contain the coordinates for the HGM locations.

If you cannot access Google Earth, I can write them down and send that way. Let me know if you have any questions.

Ann,

Attached are two KMZ files that contain coordinates for the HGM locations. One file contains plots 1-9 and the other contains only the two additional plots we did on Friday. Let me know if you have any questions or issues with the KMZ's.

Scott

Thanks Lee...I will let you know if I have any more questions!

Hey, I just got a message from George DeLancey from the USACE. He was wondering if you have coordinates for the sample points that were taken at Seven Hills.

Thanks,

Ann
